Techniques

X-SHAPE SINGLE CROCHET (Yarn under single crochet)

I've chosen to work with x-stitches in this pattern. An x-stitch is a variation of a single crochet, that is crocheted slightly different from the regular single crochet (also known as v-stitch).

X-stitches will have a neater and tighter look and make your work more dense (and your work will less likely have gaps where stuffing can be seen).

Insert your hook in the next stitch. Now yarn **under**, not over as you would with the regular single crochet; have your hook pointing downwards to grab the yarn and pull up a loop through the stitch [1]. You now have two loops on your hook. Then finish the stitch like a regular single crochet; yarn over and pull through both loops [2,3].

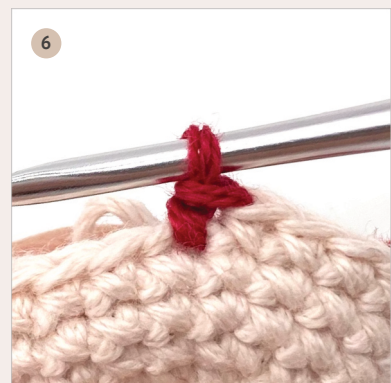

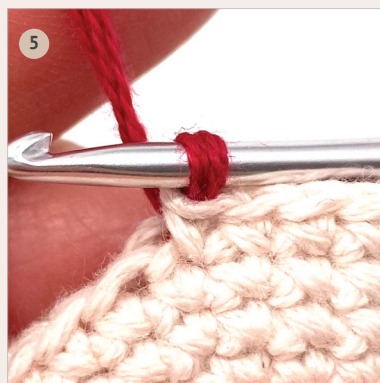

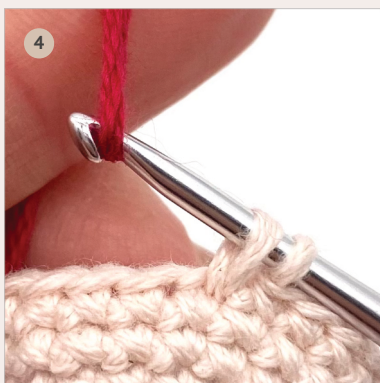

COLOR CHANGES

Always make the color change in the stitch prior to where you want the new color to begin.

Insert your hook in the given stitch, yarn **under** with your current color and pull up a loop through the stitch. You now have two loops of your current color on your hook [4]. Now change yarn and finish the stitch with the new color [5, 6].

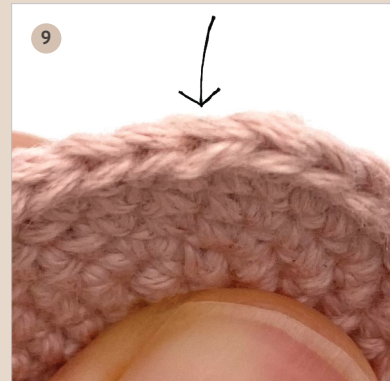

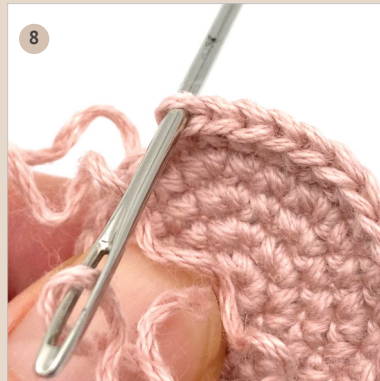

Make sure to fasten off ends from the color change.

FINISHING OFF INVISIBLY

I often *finish off invisibly* instead of finishing off with a slip stitch.

Thread your yarn needle with the yarn tail and weave the tail from front to back through the second st from last st [7] and then back in between the two loops of the last st [8]. Pull the yarn gently until the *stitch* looks similar to the other stitches [9].

Before you begin...

I recommend crocheting the parts in the order they are presented in the pattern, as the pattern is based on the tail, legs and arms to be attached/crocheted onto the body, while the body is being crocheted. If you prefer, of course you can sew on the limbs instead. Just remember to leave a long tail for assembly as you finish off the various parts.

There are a lot of color changes in this pattern. For the color changes to look as neat as possible, please allow yourself plenty of time to make them. I prefer and recommend to cut the yarn and add new yarn at every color change, unless the distance from one color change to the next is very short.

I always tie the two yarn ends in a knot, on the inside of the work. Pay attention to the shape of the stitch when you tie the knot.

Due to individual differences in crochet tension and -style, please remember to pay attention to the placement of the color changes (eye piece, stripes, belly piece) and the limbs, so your Tigger will look perfect in the end.

Happy crocheting.

In the next rnd the tail and legs will be connected. Hold the tail in front of your work - let the side of the tail where the color changes are not visible, turn outwards - so the 5 finishing sts of the tail are parallel with the 5 first sts of the rnd [41]. Crochet 5sc through both layers [42, 43].

Fasten the yarn tail from the tail by crocheting "around" it the next 5-6 sts [44] and pull the yarn tail tightly [45]. Follow the same steps with the legs. Let the front of the legs point toward you while you attach them [46].

Rnd 8: 5sc through tail+body, 8sc, 5sc through the first leg+body, 5sc, 5sc through the second leg+body, 8sc (36)

Rnd 29: 33sc (33)

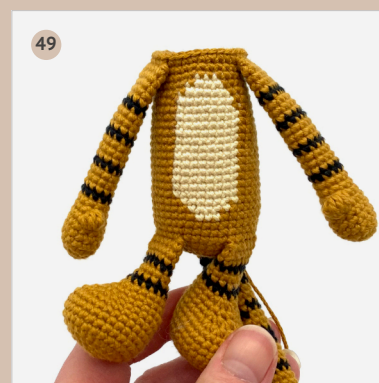

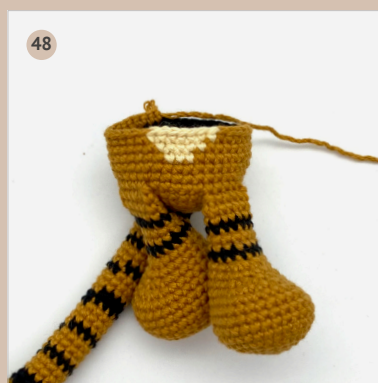

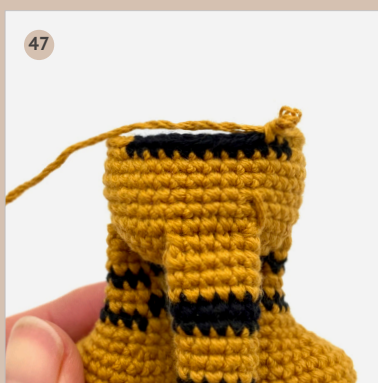

Rnd 30: 31sc, change to **black**; 2sc (33)

In the next rnd the arms will be connected. Follow the same steps as for the tail and legs.

Remember you have a left- and a right arm. Attach the arms with the thumbs pointing forwards (on Tigger) and the color changes facing toward Tigger's body.

Pay attention to the position of the arms and make sure they are aligned with the legs/tail/belly piece/ stripes - adjust if needed.

Rnd 31: 7sc, change to **mustard**; 3sc, 5sc through the left arm+body, 9sc, 5sc through the right arm+body, 4sc (33) [49]

Rnd 38-39: 18sc (18) (2 rnds) [50]

The last st of rnd 39 should be on the right side of Tigger's neck [51, 52]. If this is not the case for you, crochet (or unwind) as many sc as needed to get there.

Rnd 40: 7hdc, 1sc, 1slst, leave the remaining 9sts unworked [53, 54]

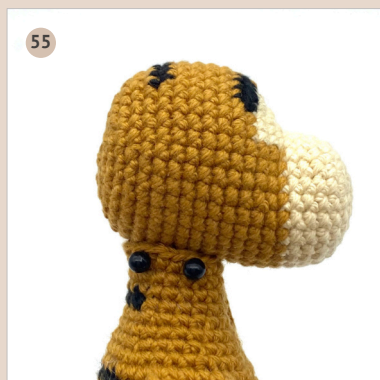

Cut the yarn leaving a long tail for assembly.

Assembly

Make sure the neck is stuffed firmly. Place rnd 13-20 of the head on the neck and secure it with pins [55]. Sew the head to the neck using your yarn needle and the yarn tail from the body.

Place an ear on each side of the head with the 2 finishing sts from the ear on rnd 17-18 of the head, 3 sts underneath the stripe on the head [56, 57].

Place the nose to the front, top center of the muzzle. Sew through the back loops of the nose, leaving the front loops visible [58, 59].

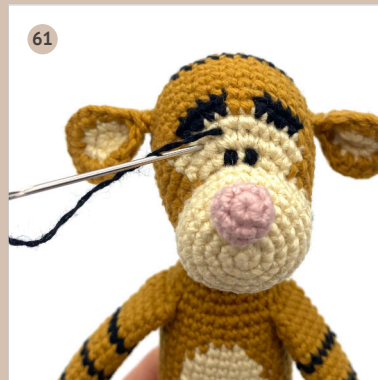

Eyes and finishing details

Black, off white & mustard

Use your embroidery needle and black- and white yarn to embroider the eyes. Split the black yarn in two and embroider the eyes on rnd 9, centered in the light yellow eye piece [60, 61].

Split the black yarn one more time to embroider the eyebrows at an oblique angle between rnd 10 and rnd 11 [61, 62].

Now split the off white yarn in two and embroider a point of reflection in each eye [63, 64, 65].

Using your yarn needle and mustard colored yarn, embroider twice over the muzzle right underneath the eye piece [66, 67, 68].

Weave in all ends.

Hoo-hoo-hoo-hoo!

- Your Tigger is now ready to bounce and spread joy -

I hope you had a lot of
fun creating him.
