Happy crocheting and smooth loops!!!

NOTE AND RECOMMENDATIONS.

You can crochet from any yarn and a suitable hook for it.

The size of the toy depends on your yarn, the hook number and the crochet density, as well as the crochet method.

When crocheting with ticks (the first and second capture of the thread from the bottom), the toy will turn out more than if you crochet with half-crosses (the first capture of the thread from the top, second from the bottom).

To carefully pull the hole, grab only the front half-loops.

All parts are crocheted in a spiral, unless otherwise specified. Use a marker or contrast thread to avoid losing the beginning of the row.

All parts are filled in during the crocheting process, unless otherwise specified.

At the end of each row in (...) the total number of loops or the number of rows is specified.
