Designer: Valentina Vashchenko

Hello dear friend!

My name is Valentina (zefirka.vlg), I hope we will be friends with you for a long, long time, because those who purchase my pattern stay with me forever)))

In my crochet patterns, I try to explain everything in as much detail as possible so that every crafter was able to make a toy, with any experience in crocheting.

I have been crocheting toys for more than 4 years, I have been creating my own descriptions for almost 2 years. I started make them seriously over a year ago. And now I practically create only them, so patterns are as detailed and interesting as possible.

NOTE!

It is FORBIDDEN TO resell, exchange, partially or completely change the description, transfer to third parties, place in the public access! It is forbidden to use my photos for advertising!

It is POSSIBLE to crochet a toy for yourself or for sale using this pattern! Please use only your own photos!

Thanks for understanding!

TIP!

In order to secure safety eyes 100% firmly, insert the eyes, put on the washer and melt the tip of the eye with a lighter, then, while it is hot, press the end of the eye with the back of the lighter, thereby making a flat tip. See photo.

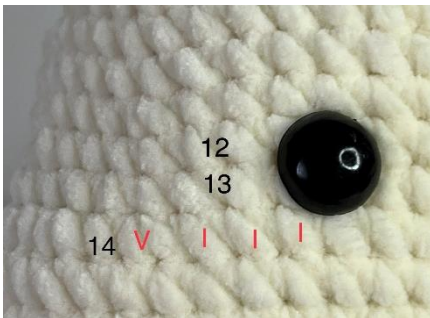

Let's start crocheting! Work in a spiral! At the end of the round, do not need to make T-CH, CH or SL ST!

In order to make a trace of the marker invisible on the canvas (if it is a thread of a contrasting color), take the thread as thin as possible and do not place it in each round. For example, if you have rounds without decreases and increases, do not place a marker there.
