Important information

- In this pattern, I give recommendations on where to modify the beginning of the round. Pay attention! The look and evenness of your product depends on this.

- Your toy size may differ from mine. It depends on the materials, the hook, and the tension of your crocheting.

- I also recommend taking exactly the hook that is convenient for you, for this or that yarn. All materials presented in this pattern were used to create these particular toys and are of a recommendatory nature.

- The growth of the Cheshire is 23 cm. (using the indicated materials)

- All details are crochetted in a spiral, except where specified.

- Yarnart jeans (160m/50g), alize cotton gold (330m/100g), gazal jeans, alize cotton gold hobby yarns have almost the same footage and weight, so these models can be replaced with each other.

Next, we move on to the design of the muzzle. Please note that there are two options in the design of the nose and mouth.

Head decoration

10

11

Option 1

Option 2

For the design of the cat's face, I tried 2 options, for which I will give descriptions. On my Cheshire, I left option number 2 (*photo 11*).

Option 1.

1. We mark the points for the nose.

Top points between 17th and 18th rounds.

Lower point in the center of the head between the 19th and 20th rounds (*photo 12*).

How to embroider a neat triangular nose, you can watch the video (*page 1*).

2. Embroider nose with powder-colored yarn (*photo 13*).

12

13

14

Option 2.

We embroider the spout with powder-colored yarn between 17 and 18 rows with several stitches (*photo 14*).

3. We mark the points for the mouth *(photo 15)*.

Points 1 and 2 between the 18th and 19th rounds, stepping back from the edges of the eyes 4 sc to the sides.

Point 3 between 21 and 22 rounds in the center.

4. We embroider the top line of a smile with thin black yarn, as shown in the video *(page 1)*.

5. Cut out a smile from white felt. For design according to option No. 2, I made it a little thinner than option No. 1.

6. Glue the felt to the head *(photo 16)*.

7. On the bottom line of the smile we embroider another line with thin black yarn. *(photo 17)*.

8. We embroider teeth with thin black yarn. For option No. 1 - straight lines *(photo 18-19)*; for option number 2 - zigzag *(photo 20)*.

further processing has no differences.

9. Sew on the ears from the 4th to 10-11 rounds.

10. Sew the fur on the cheeks on the sides of the head from the 23rd to the 28th rounds.

11. With turquoise yarn we embroider eyebrows from the 10th to the 11th rounds, the width of the eyebrows is 6-7 sc (*photo 22*).

12. With turquoise yarn, we embroider strips on top of the head - 3 pcs. different lengths (*photo 23*); bottom of the head - 2 pcs. the same length (*photo 24*); on the sides of the head - 3 pcs. different lengths (*photo 25*).

13. We embroider 1 stitch on all emerald stripes with a thin black thread (*photo 26*).

14. With black yarn we embroider "arrows" under the eyes (*photo 26*).

Start to crochet in grey color, stuff as you go only part of the foot.
