Technical Method & Tips

***Tips #1:** Use milk cotton yarn/acrylic yarn for skin part to get the desired 'fluffiness' effect, and use soft cotton yarn to do the other parts so it won't come out hairy.

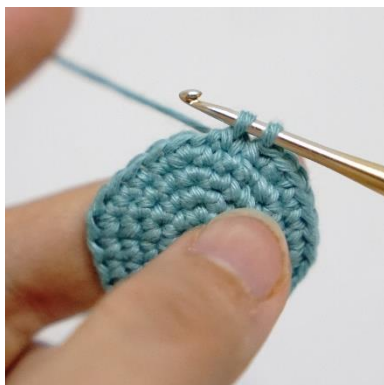

***Tips #2:** You have to crochet the stitches tightly with smaller number of hook suggested for the yarn to achieve smooth doll surface with small pores.

***Tips #3:** Fill the doll with as much poly-fibre as you possibly can, in order to make the doll firm.

How to decrease (invisible decrease) in round/circle:

Take the front loops for the next two stitches only.

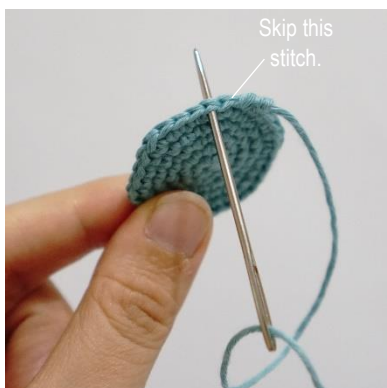

Yarn over through the first two loops.

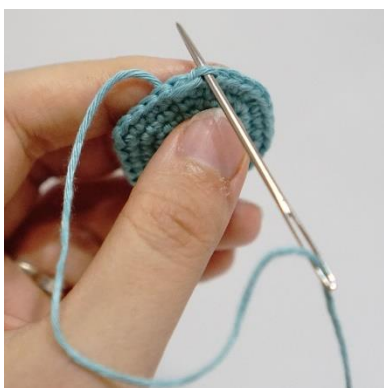

Yarn over once again through the rest.

How to do clean fasten off (invisible finish):

After you cut the yarn, insert the yarn into the second stitch after your last stitch.

Insert the yarn back into the last loop you've done.

Here is the result.

- Sew the edge together with slip stitch (one side with BLO, the other side with both loops). *See the pictures.*
- Rejoin a new yarn at the top part and decrease along (peak and valey).
- Fasten off, leaving a long tail for closing the hole. Using a tapestry needle, pass the yarn tail through the stitches of the top opening of the hat and pull to gather close. Make a couple of stitches to secure.

- Add a pompom at the top of the beanie. How to make a pompom:
