Ears:

Knit two details with body color thread.

Leave the long end of the thread, it will be used to sew the ears to the head.

1 row: 5sc in mr (5)

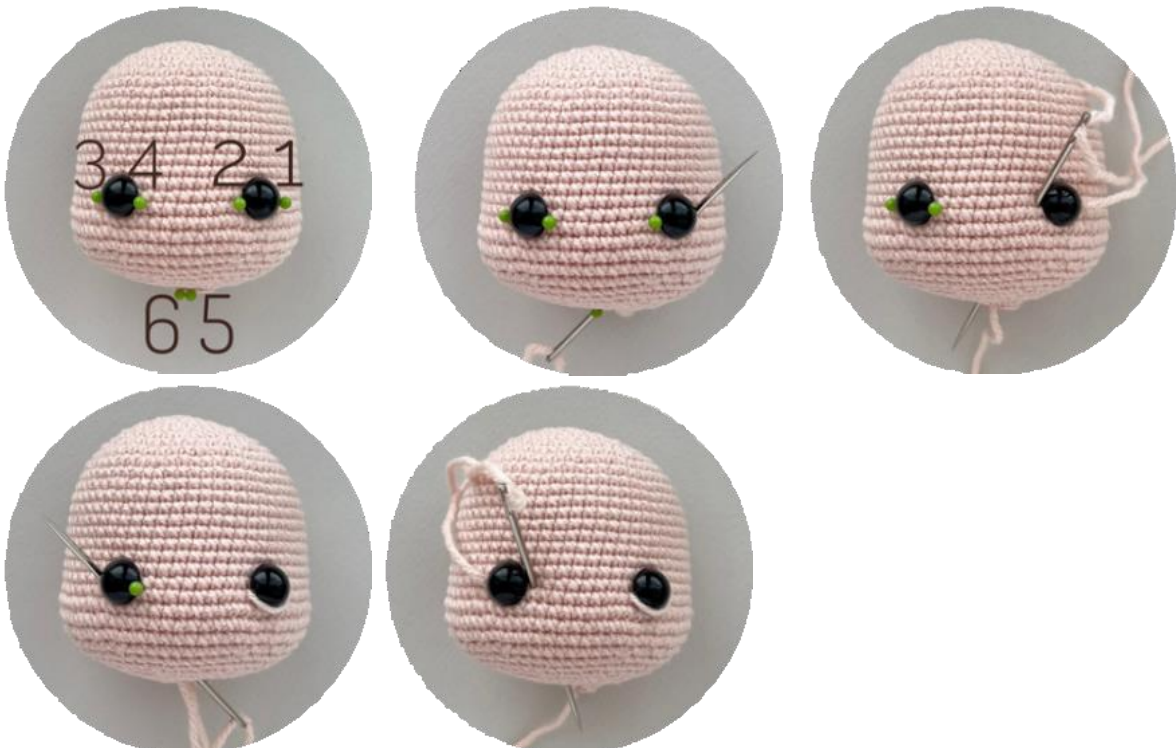

Cut the thread, leaving a long end for sewing.

Face tightening:

Make tightenings, focusing on the photo. Take a long strong thread. In this case, I used the same thread with which I knitted the doll. Insert the needle as close to the eyes as possible.

Points 5 and 6 are located in the last row of the head, in the front in the middle. Insert the needle at point 5 and bring it out at point 1. Then insert the needle at point 2 and bring it out at point 6. Now tighten the second eye. Insert the needle at point 5 and withdraw at point 3. Then enter at point 4 and withdraw at point 6. Pull the ends very gently, trying to pull the eyes evenly and not too much. Tie a knot and hide inside the piece.

Embroider the nose.

Mark 2 points with pins, they are located between the 22nd and 23rd rows of the head, the distance between the points is 3 sc. Make two stitches with body color thread from one pin to the other.

Using a needle, wrap these stitches with the same thread.

Sew on the ears.

Mark 2 points with pins: the upper edge is between the 19th and 20th rows of the head, the lower one is between the 21st and 22nd rows. From the edge of the eye 8sc. Sew the ears to the head.

With white thread, make stitches from the outside of the eyes.

Embroider eyelashes above the eyes with black thread.

Embroider eyebrows with brown thread. Pull the ends of the white, black and brown threads into the hole in the head.

After everything is embroidered, tie the ends of the threads into a knot and hide inside the head.

Lightly blush cheeks and nose using blush or dry pastels.

Brown shadows or dry pastels tone the eyebrows.

Hair:

Knit with creamy thread.

1 row: 6sc in mr (6)

2 row: back loop only: 6inc (12)

3 row: (1sc, inc) * 6 (18)

4 row: back loop only: (2sc, inc) * 6 (24)

5 row: (3sc, inc) * 6 (30)

6 row: back loop only: (4sc, inc) * 6 (36)

7 row: (5sc, inc) * 6 (42)

8 row: back loop only: (6sc, inc) * 6 (48)

Fasten and cut the thread, hide the end.

Take a wire 11 cm long, isolate the ends with adhesive plaster. Insert the wire into the doll's body first. Add filler to the neck. The neck should be stuffed tightly. Put head on neck, secure with pins. Sew firmly around the circle.

Try on the wig on head. In front, leave 6 strands of the bottom row for bangs. Secure the remaining curls of the bottom row with pins. Twist two strands of bangs between each other and lay first to one ear - 4 strands, 2 strands to the other. Sew curls to the head. Next, close the gaps between the curls with a few curls of the next row at the back. Sew curls to the head.
