

CROCHET PATTERN

Funny frog

(only crochet hook)

designed by Svetlana Malharik

Who am I? Let me introduce myself...

I am a croaker frog. Everyone in the marsh knows me. I am a kind, playful, very flexible, and business frog. I love gymnastics and cooking delicious mosquitoes for dinner ...

My designer's name is Svetlana Malyarik. She has been living in the world of amigurumi for a long time and has released many crochet patterns of various fairy-tale characters. I am sure you will like them very much. There are Witches, Baba Yaga, Dracula, Astrologer, Santa, and many other patterns, which you can find on Etsy:

<https://www.etsy.com/shop/PEARLandSTITCHart?ref=seller-platform-mcnav>

And Raverly: <https://www.ravelry.com/designers/svetlana-malyarik>

Today she will tell and show you how I was born. She tried to make a detailed pattern of my body, my favorite cap, slippers and chamomile flower. By the way, all parts are crocheted with only one crochet hook.

I am made from an aluminum wireframe. My legs, arms, neck, and even my fingers are flexible. I can stand on my own, and hold light things.

This crochet pattern consists of 48 pages and is accompanied by more than 100 photographs. The finished frog

using the materials stated in this pattern is ~10.2 inches / 26 cm tall
2(without a cap).

This pattern is a work of authorship and it intends only for personal use.

Full or partial reproduction and distribution, sales, and publications of the pattern on the Internet **are forbidden.**

You are welcome to sell the finished toy made from this pattern, but please credit Svetlana Malyarik as the designer.

I hope you will enjoy the process of crocheting and be happy with the result!

Enjoy crocheting!

Best regards, Svetlana Malyarik.

Post double stitch ribbing

Front post stitches are raised crochet stitches on the surface of the fabric facing you. You can create a front-post double-crochet (abbreviated FP dc) stitch with these steps and some practice. Back post stitches appear to recede on the side of the crocheted fabric that's facing you. You can create a back-post double-crochet (abbreviated BP dc) stitch with these steps and some practice.

Front post double crochet stitch:

1. Chain (ch) 2 for your first double crochet.
2. Yarn over (yo) and insert your hook from front to back between the posts of the first and second double crochet of the row below, and then from back to front again between the posts of the second and third stitches.
3. Yarn over and draw the yarn around the post of the stitch.

The body is almost ready:

Grab one stitch:

Tighten the thread along the right eye and bottom of the neck gently, as shown in the photo:

Draw the needle out at the bottom of the neck:

Once you draw the needle out on the bottom for the 7th time – grab one stitch and pull the needle to the left eye:

Shape the left eye with your fingers and sculpt it similarly to the right eye. Shape the nose bridge.

Cut thread and hide the tail inside the head.

Distribute fiberfill inside the head using a thin crochet hook, moving it to the cheeks. They must look plump:

Muzzle after sculpting:

Once you tightened along the left eye. Repeat three times. Tighten the nose bridge and sculpt it with your fingers.
