THIS PATTERN IS SUITABLE FOR THOSE WITH BEGINNER CROCHET SKILLS AND HAVE KNOWLEDGE OF MAGIC RING/CIRCLE,
CROCHETING IN SPIRALS, CHAIN, SINGLE CROCHET, DOUBLE CROCHET, SINGLE CROCHET INCREASE AND INVISIBLE DECREASE,
BASIC SEWING TECHNIQUES.
THE TOY ISN'T SUITABLE FOR VERY SMALL CHILDREN, OR ONES WHO PLAY ROUGH!

Marker – it is the mark of the beginning of the row - i.e. the place, where ends one row and begins the next one.
I use a thin contrast thread as a marker. The marker is thrown in the process of crocheting from the right side to the
wrong side and from the wrong side to the right side and is placed between the last stitch of one row and the first stitch
of the next row.
As a rule the toys are crocheted in a spiral: without sl st and ch. At the same time the beginning of the row moves to the
right step by step. That's why it is necessary to align the marker.
In the description of the details I point the place where the marker should go, for example, along the middle of the back
part of the leg.
As soon as you've noticed that the marker moved from the middle, you should crochet a shift stitch.
I.e. you crochet the row to the end and crochet the first stitch of the next row, and put the marker here. The number of
stitches in the row is the same!

ABBREVIATIONS

ch – chain
sc – single crochet
dc – double crochet
sl st – slip stitch
dec – decrease, crochet 2 stitches together
incdc – increase, crochet 2 dc in one stitch
inc – increase, crochet 2 sc in one stitch
decdc- decrease, crochet 2 dc together
hdc – half double crochet
inc hdc – crochet two hdc in one stitch
( )x X– repeat those in brackets x times
(number) – the number of stitches in a row

4 rnd: (inc, 2 sc)×3, 3 sc, (inc, 2 sc)×3, 3 sc (30)
  *I advice to crochet the legs simultaneously. Crochet one foot, crochet the second one right away. Then the gauge appeared to be similar and the legs will be of the equal size

Put the crocheted foot on a sheet of a cardboard and outline it with pencil.
Step 2 mm inside from the contour and draw one more contour. Cut the cardboard along the inner contour.
The received template should be a little bit smaller than the foot.
Take a plastic, fix a cardboard template on a plastic with the help of the a sticky tape and cut out the insole

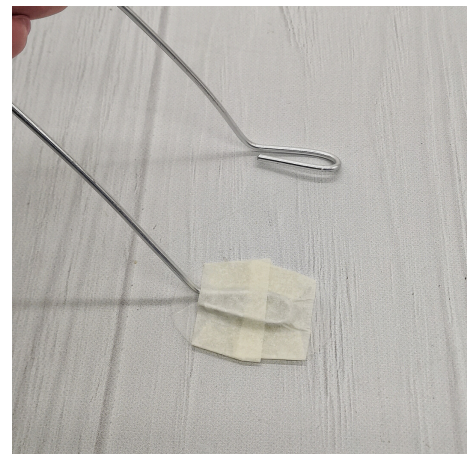

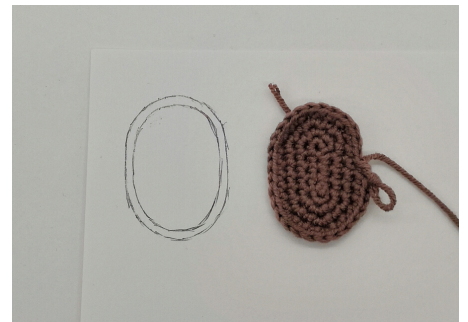

Try on the insole. If necessary you can cut it a little
Take a wire
Cut a piece approx. 25 cm (9.84 inches) long
Make a loop approx. 2 cm (0.8 inches) long at the end of a wire
With the help of an adhesive plaster fix this loop on the insole
